

**MAXIMUM RECOIL REDUCTION IN A COMPACT, RUGGED DESIGN**

**KEY DESIGN FEATURES**

- **INDUSTRY LEADING PERFORMANCE**  
Innovative reverse venting triple baffle design provides the highest level of recoil reduction and muzzle control on the market. Delivers over a 70% reduction in recoil energy for most cartridges\*.
- **EFFORTLESS MUZZLE CONTROL**  
Side vents are precisely canted upward to eliminate muzzle climb resulting in near zero muzzle movement while also minimizing dust signature when shooting prone.
- **COMPACT RUGGED DESIGN**  
FEA optimized for maximum durability and impact resistance in a compact, lightweight package.
- **SUPERIOR HEAT & CORROSION RESISTANCE**  
Precision machined from heat treated stainless with a high temperature lonbond® CrCN matte black finish for superior durability. The M4-72 can withstand the heat of combat conditions without being subject to rapid erosion. (also available in natural matte stainless).
- **PERFECT BORE ALIGNMENT**  
High tolerance class-III threads machined in same operation as bore aperture to guarantee perfect concentricity for optimum accuracy.
